ITPAC Information Items

Business Systems Developments since January 1, 1999

- The new Travel System received final audit approval from the State Comptroller's Office, and was given a unique UF Site Code for submission of audit free electronic transactions.
- The national CRIS System project leader agreed to provide UF/IFAS with daily download for input to new proposed system..
- The UF Provost formed the Cooperative Computing Initiative and Pete Kearney was asked to be member of group.
- The new Faculty Reporting System templates were previewed by Associate and Assistant Deans for Extension, Pinellas County, Live Oak, and Leon County meetings.
- Pete Kearney was a member of the team of four who performed a management review of the business and computing processes at the Lake Alfred Center.
- Dr. Wei Cao was hired to fill the vacancy created by Monica Watson's departure.
- Database redesign was started on the UF/IFAS Personnel, CRIS, and Sponsored Programs Systems in preparation for migration to a new platform and methodology.
- Business Systems was audited by the State Auditor's Office for a review of documentation for systems development and production, security procedures, and disaster recovery.
- The UF Inspector General's Office requested and was given a demo of the IFAS Departmental Accounting System, and they have asked for access for test purpose and content viewing.
- A demo of the UF/IFAS Standard Forms web site was given to UF Information Systems at their request.
